Languages	English (Advanced) · Hindi (Advanced) · Telugu (Advanced) · Japanese (Basic)

EXPERIENCE

Digital Project Manager

Jun 2024 – Present

BUFAB International AB Sweden

- Led digital projects across sourcing and sustainability that touched operations in 60+ companies within the BUFAB Group
- Built and grew the Supplier Master Management (SMM) system, which now holds data for 9,000+ suppliers with much cleaner data, better compliance, and easier document handling
- Built BUFAB's CBAM compliance solution from scratch: automated data collection, database setup, and XML bulk reporting to EU systems
- Created and maintained Qlik Sense dashboards used by around 100 managers and lead buyers for KPI tracking and compliance reporting
- Automated sourcing team workflows saving around 3 hours per week per buyer across 88 lead buyers, over 260 hours saved every week company-wide
- Took complex ESG and CBAM rules and turned them into automated workflows, cutting the manual work needed to stay compliant
- Managed full project delivery from collecting requirements through to launch, working with 10+ business and sustainability stakeholders
- Coordinated external consultants on SMM, automation, and data warehouse projects, keeping everyone aligned and on track
- Sat on the Change Advisory Board (CAB), reviewing and signing off on system changes before they went live
- Managed one direct report, helping with day-to-day delivery and their professional development

Digital Project Developer *Sep 2022 – Jun 2024*

BUFAB International AB Sweden

- Helped digitalize buying workflows, making it easier for teams to collaborate and track what was happening
- Built Qlik Sense dashboards and reports that gave leadership better visibility into sourcing and sustainability data
- Worked with business and IT teams to design and roll out digital tools that made day-to-day work faster and less manual
- Contributed to automation projects that simplified how supply chain data was collected and reported
- Part of the early team that built sustainability tools later rolled out across the whole BUFAB Group

Management Trainee – Sourcing & Digitalization *Sep 2021 – Sep 2022*

BUFAB International AB Sweden

- Rotated across sourcing, ESG reporting, and digital projects, getting a broad view of how the supply chain works end to end
- Helped build early sustainability tools that were later picked up and used across the whole group
- Worked with business and IT teams to spot where processes could be improved and helped put fixes in place

---

EDUCATION

Master's in Software Engineering *Jan 2019 – Sep 2021*

Blekinge Institute of Technology Karlskrona, Sweden

Merit Scholarship recipient

Bachelor of Technology, Computer Science *2015 – 2018*

Jawaharlal Nehru Technological University Hyderabad, India

KEY NUMBERS

- 260+ hours saved every week company-wide through buying workflow automation across 88 lead buyers
- 9,000+ suppliers centralised in the SMM system, supporting compliance across 60+ group companies
- Full CBAM compliance setup delivered before the regulatory deadline: data collection, database, and EU reporting
- Around 100 managers and buyers now use the dashboards daily for performance and compliance tracking
